

Please Click on the link below for Great Training from Dorman! They break up their trainings into two categories, the first section is about Product Training (9 Courses) and the second section is about Technician Training (8 Courses).

In addition, to help service technicians make the most of the current situation, Dorman, in partnership with ATTS Training (G) and TST, is offering free, live, online training courses every Wednesday through May @ Noon ET. If someone can't attend live, recordings will be made available within 48 hours.

To join, simply go to DormanTrainingCenter.com, and create an account if you haven't already. (FOR THE COURSES ABOVE AND THE WEBINAR!) Then go to Technician Training, select the *Webcast Wednesday: Technician Appreciation Series LIVE series*, and register for the course(s) you would like to attend. You'll then be emailed an invitation to attend. In addition, we have recordings from a 3-Part Series we hosted last week - *Maximizing Scan Tool Proficiency: 3 Part Series*.
