Please see the Video made by Amalie “Low Speed Pre-Ignition is a Real Problem for GDI Engines”, by [Clicking Here](#) and Read About it in a Technical Service Bulletin by [Clicking Here](#) “Low Speed Pre-Ignition and Oil”!

Additionally, a new specification governing the Automotive Engine Oil Market, is going into effect May 1, 2020. Its called ILSAC GF-6, and broken down into segments API SP/GF-6 A & B. It will replace the current standards of GF-5. Please watch an overview of what this means for you and your customers. [Click HERE!](#) If you want to read more about these changes, [Click HERE!](#)
